Ricardo Mendes Leal Junior

Curriculum Vitae

About myself

I am a person who is really engaged with the programming part, always looking for new challenges. I have a good communications skills, therefore, enjoying to participate in projects with a team and grow up with them, besides I really enjoy a pleasant work environment.

Education

o 2015–2018 **Higher Education**, *Bachelor in Computer Science*, UFSCar, Sorocaba.

Projects

Volunteer

o **Academic Center:** *Pata do Bisão*

Worked as secretary in the center, I also participated in some projects, like the installfest linux, where we helped the new students to have the first contact with some distributions.
Likewise I helped in the *Universidade Aberta*, event that shows a little about the university and the academical life to the people who want to know more about the university.

o **SeCoT:** *Computer Science Week*

The purpose of the week is to share new content from different areas of Computer Science to students from the city, bringing new technologies, new topics, talking about the opportunities in the market and mini marathon in the end of the week.

o **Guided Study**

Advanced study in the Computer Theory along the Professor Doctor José Oliveira Guimarães.

o **Tutoring:** *Computer Theory*

Offering help when was necessary to the computer teory students.

Professional Experience

Internship

○ **Infrastructure** *Ansible Automotation*

I've worked with the automatation tool during 6 months, automating the creation of envirionments in the *vBlock* and automating the *hardening* on the new Virtual Machine, using the OS *Red Hat Enterprise Linux* (RHEL).

○ **Frontend development** *Angular*

I've worked with the framework on it's 6th version during 8 months, consuming data from the private network (Intranet), more precisely the Sharepoint Server, to form views about the systems and technologies.

Personal and Technical Abilities

○ **Technologies:** Main: C, Python, Ansible, Angular, Flask.
Basic: SQL, Java, NodeJS.

○ **Languages:** English Advanced, Portuguese Native.

Interests

○ Programming, new technologies, innovation, open source, User Experience, web development (frontend, preferably backend).
